Wollaston Health & Wellbeing Group (An initiative of St Mary's Church, Wollaston)

Currently there are 4.7 million people in the UK known to have diabetes, with someone new being diagnosed every 2 minutes. It is estimated that 12.3 million people are at risk of developing Type 2 diabetes in the UK, but with weight loss and careful attention to diet and exercise, 3 out of 5 cases can be prevented. This talk led by Dr Nigel Scott, will help you to understand the causes, management and consequences of diabetes, which without appropriate measures, many of us are at risk of developing.
